

WAR WILL
RUN A YEAR

Says a Prominent Japanese in Paris.

ONE MORE ENGAGEMENT

Is Looked For By Japanese, Before Winter Sets in, Between Oyama and Kuropatkin.

Paris, Sept. 10.—A prominent Japanese here is authority for the assertion that Field Marshal Oyama has planned for one more general engagement with General Kuropatkin's force before winter starts in. The Japanese, he says, recognize that they have at least a year's fighting ahead of them against heavier odds than they have encountered in the present campaign, but consider the fall of Port Arthur and the occupation of the whole of Korea and southern Manchuria a sufficient trophy for the first year of the war.

WORKING ON LETTER.

Judge Parker Finds Time, However to See a Few Callers.

Esopus, N. Y., Sept. 10.—Judge Parker spent the morning writing on his letter of acceptance. Justice Edward E. McCall of the supreme court of New York came to Rosemont for luncheon. William F. Sheehan, chairman of the national executive committee, is expected here Sunday.

Other callers who arrived at Rosemont during the day were Judge Dennis O'Brien of the New York court of appeals and William G. Rice of Albany, former secretary to David B. Hill.

President's Distinguished Visitors.
Oyster Bay, N. Y., Sept. 10.—Baron Ladislaus Hengelmüller, ambassador of Austria-Hungary to America, and Count Apponyi, president of the Austro-Hungarian diet, were guests of the president and Mrs. Roosevelt at Sagamore Hill. Count Apponyi, who is a distinguished Hungarian leader, arrived in this country last Saturday to visit the St. Louis exposition and to make a short tour of the country. He desired to pay his respects to President Roosevelt, and his presentation to him was arranged through the Austrian embassy. The visit, it is stated, was of no official significance.

Davis and Gorman Confer.
Baltimore, Sept. 10.—Ex-Senator Henry G. Davis, Democratic vice presidential candidate, has arrived here and is a guest at the Rennett hotel. Senator Gorman was at the hotel when Mr. Davis arrived, and these two held a conference, the nature of which has not been divulged. During the day a number of Maryland Democratic leaders called to pay their respects to Mr. Davis, who announced that he would remain in Baltimore two or three days and then proceed to Philadelphia and New York.

BANDITS NEAR ROCHESTER.

Telegraph Operator's Exciting Experience With Two Highwaymen.
Rochester, N. Y., Sept. 10.—Devello D. Sanders, telegraph operator at Genesee Valley Junction, near Caledonia, and Kenneth M. Snapp, editor of the Caledonia Era, had an exciting encounter with two highwaymen. The two men were driving from York to the junction, and Sanders had a large sum of money with which to pay the employees on his division.

While passing through a lonely piece of road two men stepped from the bushes, one of whom seized the horse by the head while the other leveled a shotgun at the men in the carriage. Quicker than a flash Mr. Sanders, who is a powerfully built man, sprang from the buggy, grabbed the gun from the man's hands and hurled him to the ground.

While he was doing this Mr. Snapp was applying the rawhide whip vigorously to the other highwayman, who as soon as he could recover himself took to his heels, followed by his companion.

The Cuckoo.

The cuckoo does more service than it is usually credited with, for it keeps down the millions of caterpillars which work havoc among the crops. Out of every 100 caterpillars of a certain kind which come into existence round about its temporary abode ninety-nine are devoured by this bird.

India's Government.

India is in every sense of the word a crown colony. The governor general in council has power to make laws for all persons—British, natives or foreigners—in the Indian territories.

KNOCKED HIS WIFE DOWN

And Wife Now Asks Separation From Her Husband.

St. Albans, Sept. 10.—In Franklin county court, attorney Elmer Johnson brought on the case of Myrtle M. Bassford, a petition for divorce on the grounds of intolerable severity and neglect and refusal to support. The parties were married in April, 1895, at Milton and went to live in Wisconsin with the defendant's parents. Five years later the parties came to live in this city. About two years ago after a drinking bout, the defendant knocked his wife down and she left him. He went away and she has not heard of or from him for over three years. The court took the case under advisement.

AUTO FRIGHTENED HORSE.

Couple Thrown From Carriage In Brattleboro and Hurt.

Brattleboro, Sept. 9.—Bert Tenney of New York city and Miss Lena Thomas of this town were thrown out of a carriage last evening about 7 o'clock while driving from West Brattleboro. Their horse took fright at Hayes Bigelow's automobile near the Wheelster place, and shied suddenly drawing the carriage directly in front of an electric car. Both occupants were thrown out and more or less bruised, and the vehicle badly damaged.

EXCEEDED THE SPEED LIMIT.

Brattleboro Autoist Fined for It: There May Be Others.

Brattleboro, Sept. 9.—John Harvey was arrested Wednesday morning by Chief Hall on a warrant charging him with exceeding the speed limit in his automobile. He was arraigned before Justice Newton and pleaded guilty, being fined \$5 and costs amounting to \$10.50. Harvey is only one out of a large number of autoists who have failed to comply with the law regarding the speed of machines. The bailiffs have begun a crusade against this nuisance.

VICKERS HAD TROUBLE.

Big Pitcher Sorry That He Ever Went Back to Holyoke.

"Rub" Vickers came to town yesterday, but before the day was over he was sorry he came. He had three warrants served on him in about as many hours for bills he owed, but had neglected to pay. The biggest bill he paid yesterday, under protest, was that of George H. England, jeweler, for \$75. Vickers must have had a plenty of money for he presented a \$500 check at one of the banks to be cashed.—Holyoke Transcript.

JAPAN'S RAILWAYS.

Island Empire Building Twenty Thousand Miles of Track.

Although the miles of railway already built and in use in the diminutive country of Japan would make a double track across the American continent, the Saurise Kingdom has reached only the first period in its railway age, says a writer in Booklovers' Magazine. When the lines now under construction and proposed are completed Japan will have 20,000 miles of track. Its railway men estimate that during the coming decade their country will purchase 7,000 locomotives, 30,000 passenger coaches and 150,000 freight cars.

Here is an opportunity for American enterprise, for there is a tendency on the part of the Japanese just at present to look to the United States for ideas in regard to railway equipment and management. Hitherto England has been Japan's model in railway affairs.

One ride in a railway train in the Land of the Rising Sun does much to disillusionize the American who carries to that country the belief that Uncle Sam is the godfather of Japan. Take a train at Yokohama and ride to Tokyo, and but for the character of your fellow passengers you could readily believe you were traveling from Liverpool to London. The whole system is thoroughly British. It is a revelation to find painted in English over the booth where he buys his ticket at the railway station the sign "Booking Office." He gets a card of instructions which tell him, among other things, how he can "forward his luggage." You never "check your baggage" in Japan.

The Paris Rat Pound.

Among the sights in the city of Paris is a regular rat pound, where the services of the rodents are utilized for removing the flesh from the carcasses of dead animals. A horse thrown in overnight is quite stripped by rats, and it is the regular work of men in charge to remove the polished bones.

American Ideas Abroad.

Vacation schools, which were tried as an experiment during the summer in London, have proved such a success that this form of instruction will next year be extended and systematized. The roof garden idea, an American importation, is spreading rapidly through England, according to the London Mail. This use of house-tops has become frequent in London. The Mail calls it "an admirable and desirable novelty," but points out that the comparative rarity of skyscrapers puts the aerial garden on a lower level than in the United States.

MAY RECOVER
FROM INJURY

John N. Kellogg Who Was Injured Thursday

IS PARTIALLY CONSCIOUS

His Son is Now Out of Danger But He Does Not Remember the Details Of the Accident.

Rutland, Sept. 9.—J. N. Kellogg of this city, who was seriously injured in a runaway accident at Pittsfield yesterday afternoon, was brought to the Rutland City Hospital today in an ambulance. The injured man partly regained consciousness today and it is thought that he has a chance of recovery. Three or four ribs were broken and it is thought that the end of at least one of them penetrated the lung. He also has a concussion of the brain as the result of a blow on the head.

Mr. Kellogg's son, Newton, who was also found unconscious in the road with his father recovered consciousness last night and is apparently all right today. A queer circumstance connected with the boy's case is that he can remember nothing in regard to how the accident happened and but very little in connection with the trip from this city to Pittsfield.

Still We Boom.

Still we boom and all our manufacturers are on the hustle these days, says the Barre correspondent in Granite. The writer is of the opinion that never before in the history of the Barre granite business has there been as much work contracted for in the same length of time as has been the case within the past two months. In our last report we mentioned regarding the large amount of work that had suddenly swept into the market. This has continued and at this writing it would be a hard matter to locate a Barre granite manufacturer but what is full up to the brim with business. Of late there has seemed to be a slightly perceptible falling off in the work sent in for estimating but under ordinary conditions we would still call it a very generous supply. In a thorough canvass of the manufacturing district we found nothing but good courage and enthusiasm over the prospects and many expressed the opinion that this is a forerunner of a prosperous fall and winter. We hear some complaints made to the effect that the quarries cannot get out the rough stock fast enough to supply the great demand and that this delay is troubling them more or less. This simply means that there is a scarcity of men to do the work and in connection with this we can mention that the demand for cutters at the manufacturing plants is greater than the supply and should two or three hundred extras drop into Barre today they could all go to work within twenty-four hours.

Waterbury, Sept. 10.—The last day of the Winooski Valley fair was cloudy and misty, which again prevented a large attendance, only about 1,000 being on the grounds. The base ball game between Morrisville and Richmond was hotly contested and resulted in a victory for the latter by a score of 5 to 6. T. battery work of both teams was good. Richmond won through better batting and fielding. Fraser of Richmond received much better support than Rubie. Morrisville was weak at the bat and only made three hits. Richmond made five hits and was aided by errors.
